

The App That Makes Your Family Closer

Introducing **Family Huddle™**

Family Huddle is shared amongst the members of your family of group and facilitates safe mobile interactions to strengthen family communication and bonds.

Strengthen Your Family's Communication

- Spark positive family interactions that generate reciprocal emotional boosts.
- Learn as a family how to create a habit of paying positive attention to one another.
- Work as a team in sharing activities to earn bonus activities that elicit in-person interactions

Backed by Science

Today's families struggle with many of the same issues that couples face including business schedules, poor communication and lack of consistent quality interactions. Family Huddle leverages research studies and principals from our relationship app for couples, Love Every Day, and expands that methodology to provide a solution for the entire family.

Built for Today's Family

Open and honest communication is vital for healthy families. Without clear, effective communication, members of the family won't feel heard. However, fostering that communication in a world where both parents typically work, divorce rate is higher than it has ever been, blended families are more often the norm, and life schedules are more and more cluttered – is difficult. Family Huddle helps to build lines of communication across those barriers and enhance your family relationships

Highly Engaging, Built for Mobile

Family Huddle provides family members daily questions and inspirations to help them create a habit of honest communication with their entire family. The mobile ready design makes it easy for the family members to stay engaged in the conversation whether they are using an iOS device, Android or PC.
