

California Correctional Telemedicine Services

At the direction of the Federal Receiver, California Correctional Health Care Services (CCHCS) Telemedicine Services has continued implementation, expansion and improvement of telemedicine services, resulting in increased access to healthcare for their patient/inmate population, increased public safety, and a decreased patient/inmate off-site medical transportation cost.

CCHCS Telemedicine Services has experienced continual expansion and growth over the past 10+ years, with the latest fiscal year (July 2021 - June 2022) resulting in over 80,00 specialty and primary care telemedicine appointments.

Fiscal Year	Number of Encounters
2010-11	2,881
2011-12	6,900
2012-13	4,716
2013-14	4,434
2014-15	12,558
2015-16	27,446
2016-17	26,672
2017-18	38,278
2018-19	63,433
2019-20	69,110
2020-21	58,079
2021-22	84,577

Telemedicine Primary Care Services

Primary care telemedicine has shown to be a great resource for institutions with recruitment and retention issues, and when providers are unavailable for long periods of time (military leave, sick leave, maternity leave, etc.)

GlobalMed powers the world's most advanced virtual health technology platform and wellness applications that support a patient at any point in the continuum of care.

Providers are enabled with integrated software and data capturing tools to deliver a complete and accurate patient encounter for evidence-based treatment and improved patient outcomes. Payors and providers looking to manage capacity, reduce costs, expand patient care, and deliver responsible medicine, will get all they need from one platform.

With over 60 million consults delivered in nearly 40 countries, GlobalMed is honored to be the telehealth provider to the Department of Veterans Affairs, Defense Health Agency. Its virtual healthcare platform has the Authority to Operate (ATO) on U.S. Department of Defense networks with the highest level of security.
