

ClearCam™ CC1200TW VIDEO CONFERENCE CAMERA

The superior optical zoom lens, excellent white balance, and exposure mode delivers a clear image even in low light or the extreme contrast of brightness and darkness in a conference room. The camera covers a wide shooting angle and achieves high-speed, quiet, and precise positioning with smooth PTZ operations. This enterprise-class USB 3.0 full HD PTZ video conferencing camera has positioning for middle and large clinical settings -perfect for patient to provider video communication.

Features

- Equipped with a 1/2.8" 2.41MP CMOS sensor, this PTZ camera outputs full HD 1080p at 60 frames per second video streaming, offering high definition, noiseless and crisp, realistic color imaging with full details
- 12x optical zoom lens, with 74-degree horizontal viewing angle, along with quiet, fast, and precise positioning movements to capture any view in conferencing space.
- USB3.0 Output, Plug-and-Play, compatible with your preferred video conferencing software and platform including eNcounter®.
- FECC (far-end camera control) supported.
- Standard VISCA and UVC1 control protocol, PTZ control and firmware upgrade via RS232 and USB port.
- 128 preset settings for pan, tilt, zoom, focus, exposure, and white balance modes.
- When ending a video conference or patient encounter, the camera automatically enters Privacy Mode - the tilt down of the camera to hide the lens.
- Supports multiple mounting options; available to install on desk, monitor, tripods or upside down in-ceiling.
