Joel E. Barthelemy

As Founder and CEO of GlobalMed, Mr. Barthelemy's vision is to build *a World without Disparity of Care*. With more than three decades of expertise and iconic leadership in the technology industry, Mr. Barthelemy develops transformative virtual care technologies that center both the patient and care provider experience. He has been recognized and honored as an outstanding innovator, community advocate, Entrepreneur of the Year and a high-growth health tech company leader.

Under Barthelemy's leadership, GlobalMed powers the world's most advanced virtual care programs, supporting patients at any point in the continuum of care. GlobalMed's technology has enabled approximately 50 million consults in nearly 100 countries and on all continents, including Antarctica. It's used across the provider community, including correctional facilities, oil rigs, and is the technology provider to the Department of Veterans Affairs, the Defense Health Agency (Department of Defense Branches), the White House Medical Unit, and governments and militaries around the globe. It possesses an Authority to Operate (ATO) on the internal, secure networks of the U.S. Department of Defense, which mandates the highest level of security.

An active community leader and widely respected industry trailblazer, Mr. Barthelemy participates on the Arizona Bio Industry and ASU Health Futures Council and is a board advisor to Mindset Medical, AdviNow Medical, OraVu, Colored Organics, WIYN Investments, and SEE4Vets. He previously served as a Board member of Sun Health Services.

An Honorary Commander of Luke Air Force Base, Mr. Barthelemy passionately advocates for the Veterans Medical Leadership Council, who connects Military Veterans to medical, mental health, and general wellness resources. Mr. Barthelemy also serves efforts to advance telehealth industry policy and advocacy. He is an active council member for the Arizona Telemedicine Program and has served the American Telemedicine Association as a board member, the chair of the Industry Council, and was inducted into its College of Fellows in April of 2021.
